Special Issue: Trauma Exposure and PTSD in Justice-Involved Youth

Child & Youth Care Forum announces a forthcoming special issue on **Trauma Exposure and PTSD in Justice-Involved Youth**. This special issue is being edited by Keith Cruise, PhD, MLS and Julian Ford, PhD.

Manuscripts that address a wide variety of issues involving the effects of trauma exposure and PTSD symptomatology in juvenile justice populations will be considered for this special issue. Of particular interest are manuscripts that address empirical testing of screening and assessment tools, intervention outcomes, and longitudinal studies investigating a variety of outcomes (e.g., behavioral, legal, psychosocial). Manuscripts that address implementation of assessment and intervention practices across different juvenile justice settings (e.g., community, residential, detention/corrections) are especially relevant for this special issue.

The deadline for manuscripts submission is November 15, 2009. Manuscripts should be between 20-30 double-spaced typewritten pages. Manuscript submission and review will be handled through the *Child & Youth Care Forum* electronic submission portal (<http://www.editorialmanager.com/ccar/>). When electronically submitting a manuscript, indicate that the manuscript is designated for the special issue using the Editorial Manager system. The editors request that authors also provide names and contact information of three qualified reviewers with each submission.

Additional inquires regarding manuscripts for this special issue can be addressed to either Keith Cruise (cruise@fordham.edu) or Julian Ford (ford@psychiatry.uhc.edu).
